## Experience

### Senseforth AI UX Designer

*Dec 22 - March 23*

Led an agile scrum design team as the design lead for a dynamic dashboard project.

Co-designed multiple features for an AI based automated bot builder platform.

### Brave New World Communications UX Designer

*Mar 22 - Nov 22*

Directed the UX research and design strategy for digital products, including brand experience websites and e-commerce platforms.

Skillfully crafted process flows, UI mockups, and prototypes to express and conceptualize intricate interactions in various environments and user scenarios.

Facilitated and organized internal stakeholder workshops, user testing focus groups and qualitative user interviews to gain brand and usability related insights.

### Headless Hippiess UI/UX Designer

*Jul 19 - Dec 21*

Guided UX research initiatives for numerous B2B and B2C clients, ensuring alignment between digital products and the dual requirements of business objectives and user satisfaction.

Managed the complete design lifecycle for multiple websites, apps, and branding projects, encompassing the user research phase, visual design, user testing, and seamless developer handovers.
